

## Dear Families of Freedom,

Firstly, thank you for your service.

If you're reading this, you're probably someone in the military or love someone who is. We know you make a lot of sacrifices for our freedom and we appreciate every single thing you do to help keep our nation safe.

We've created a product that allows families of every shape and size to connect with their loved ones, keep their lives organized and stay connected to the information that is most important to them and we would love it if this tool could help you.

Being in the military comes with its own special set of challenges when it comes to engaging in family life. If you're deployed, it can be especially hard to feel in-tune with what's going on at home with kids, friends and loved ones.

Family Core allows its users to communicate, organize and share the details of life.

To show our appreciation for all that you do, we are offering military families a lifetime subscription to Family Core for just **\$7.99 /mo.** (regularly \$9.99 /mo.)

You probably have your gear packed and ready to go if called upon, please consider adding Family Core to your kit and be prepared with the tools that can keep your family close at hand.

Sincerely,

*Dr. James & Ginger Dellaripa*

**The founders of Family Core and proud parents of a service member**
